Termination of CAMERADE Operation

REFERENCES: MSKA-3480, MSKA-6897, 7195

Although MSKA-3480 suffices our need here for a general decision on the CAMERADE operation, it does not satisfy our curiosity as to events which led to the discovery that CAMERADE has possibly long been tripled against us. We should appreciate hearing from you in the form of a final summary, including dates and details leading up to your decision to terminate the operation. If you will read over MSK-W-1681, I think you will see what needs to be answered before we can close the books here. In addition, the last sentence of MSKA-7195, paragraph 2, causes us some little concern, when read along with MSKA-6978 on the cashing of radios. We note that the security aspects of the operation are not even mentioned in MSKA-3480, but perhaps you had intended to inform us more fully.
